PROFILE

I love computer technology, music, and reading. I'm self-taught in computer science and have participated in community development for miHoYo. I'm familiar with the syntax of languages like Python, Java, C/C++, and Go. I have strong learning and information acquisition skills. I'm also a skilled communicator. I'm also familiar with fields like psychology and philosophy.

EDUCATION

2024 - 2027

LNCC

- College student
- study committee
- School studio consultant

WORK EXPERIENCE

■ **2018 - Start**

I like Computer Science.

Start Learning

- Self-study Python and C/C++
- computer network
- TCP/IP protocol suite

■ **2024 - Deep**

- Java
- MySQL、Redis
- Java Web
- Spring、Spring MVC、My Batis
- My Batis Plus、Spring Boot
- Spring AI、Distributed principle、OS Design

■ **2025 - Cross**

Computer Science Theory

CSer - Computer Sciencer

- Machine Learning
- Deep Learning
- Programming Language Theory
- OS Design
- Computer Architecture
- Computer Network
- Compilation principle
- Front-end development: Vue3

SKILLS

- Programming Language Theory
- Operational System Design
- Machine Learning
- philosophical theory
- psychological theory
- backend development
- Full stack development
